

COUNTERFEIT PARTS POLICY STATEMENT

J-TEQ EMS Solutions Ltd. recognise that counterfeiting of electronic components remains a serious global problem for companies worldwide.

To protect the safety, quality and reliability of manufactured product, and; to protect our customers J-TEQ EMS Solutions Ltd apply a risk preventive policy to component purchasing activity.

J-TEQ procure product from the source with the least risk.

- Manufacturer Direct (OCM)
- Manufacturers Approved Franchise
- Manufacturers Approved Agent/Rep

Obsolete or difficult to source component are procured through broker or independent distributors via the J-TEQ AVL.

J-TEQ have robust component controls in place to check components that include packaging, labelling, unusual print, Missing stamp / label, Marking & Logo legibility, CoC and inspection report integrity.

J-TEQ will investigate any component that looks suspect or does not perform as required using relevant industry support sources e.g. ERAI.
